

2009 Annual Letter & Dues Request

It's 2009. Do we expect the needs of the community to be much the same as they were in 2008? How can we make a difference? When is "Same Old—Same Old" just not good enough?

JOIN NOW!

Neighbors have needs that don't go away on their own. One voice isn't loud enough to get the kind of attention Beachwood Canyon needs and we just can't nor should we pay lobbyists for their access to the Powers That Be downtown.

So it's up to each one of you to do your small part. If we had more funds, we could make a louder noise locally and at City Hall. Parking, road conditions, and overdevelopment need the same kind of attention that areas like West Hollywood enjoy.

To affectively address the issues that mean the most to all of us, we may at times have the need for legal counsel. We spent a great deal of money on appeals, graphics, and outreach materials so that we could fight a huge development that was threatening our community. We are still in the middle of that fight and there are more projects lining up that could change the landscape of Beachwood Canyon forever!

Grassroots community participation is changing the face of our country right now. Why not see this at work right here in our own backyards—in our own neighborhoods? With your help we can make a difference. **(Please visit our new website: www.BeachwoodCanyon.org)**

Our dues are very low (see below). Mailing your check today can be so simple yet mean so much in 2009.

Together we can get things done! Let's make 2009 the year we swapped complaints for celebrations!

Thanks for your support.
